

# FERRARI ALVE SANTIAGO IVAN

+61 0452 017 403

ferrari.santiago.ivan@gmail.com

**OBJECTIVE:** Passionate and skilled software developer with a strong foundation in various programming languages and frameworks. Seeking to leverage my comprehensive expertise to deliver high-quality software solutions, drive innovation, and contribute to collaborative development projects.

## TECHNICAL SKILLS

### Programming Languages & Frameworks:

- Proficient in C#, Java, JavaScript, with extensive experience in web and Windows application development.
- Skilled in modern web development frameworks and libraries including REACT, Redux, .NET Core, Entity Framework, and Angular.
- Experienced in development using Genexus Evolution 2, 3, and 15 for both web and Windows environments.

### Development Environments & Tools:

- Agile development methodologies and technical document design using UML.
- Proficient in database management with SQL Server 2008 R2 and versed in various version control systems including Team Foundation Server (T.F.S) and Microsoft Azure DevOps.
- Familiar with project management tools such as Jira and Microsoft Azure DevOps for efficient team collaboration and project tracking.

### Software Development:

- Demonstrated ability to develop and maintain robust web and Windows applications, with a strong understanding of software development lifecycle from requirement analysis to deployment in UAT and Production environments.
